Artem Kotelskiy

Curriculum Vitae

Indiana University
Math dept, 831 E 3rd Street
Bloomington, IN, 47405

email: artofkot@iu.edu homepage: artofkot.github.io

EMPL	ΟY	ME	NT
------	----	----	----

• Indiana University, Bloomington, USA. Zorn postdoctoral fellow.

2018-present

EDUCATION

• Princeton University, Princeton, USA.

2013 - 2018

Ph.D. in Mathematics. Advisor: Zoltán Szabó.

• Lomonosov Moscow State University, Moscow, Russia.

2008 - 2013

B.S. and M.S. in Mathematics. GPA 4.97/5.00.

Advisor: Taras Panov.

Publications and preprints

Submitted, arXiv:2004.01619

• A mnemonic for the Lipshitz-Ozsváth-Thurston correspondence. Submitted. arXiv:2005.02792 2020

• Khovanov invariants via Fukaya categories: the tangle invariants agree.

2020

• Immersed curves in Khovanov homology.

2019

Submitted. arXiv:1910.14584

• Bordered theory for pillowcase homology.

2019

Mathematical Research Letters **26**, no. 5, 1467-1516.

arXiv:1707.07481

• Comparing homological invariants for mapping classes of surfaces.

2017

2016

To appear in Michigan Mathematical Journal. arXiv:1702.04071

5.

• Minimal and Hamiltonian-minimal submanifolds in toric geometry. Master thesis. Journal of Symplectic Geometry 14, no. 2, 431-448.

arXiv:1307.8140

Conference and Workshop Talks

• Interactions of gauge theory with contact and symplectic topology in dimensions 3 and 4.

June 2020

BIRS workshop, virtual talk via zoom

 CRM's 50th anniversary workshop "Low-dimensional topology". CIRGET, Montréal, Canada.

September 2019

• Tehran Topology 2018.

June 2018

School of Mathematics, IPM, Tehran, Iran.

• International Seminar on Toric Topology and Homotopy Theory.

June 2018

Steklov Mathematical Institute, Moscow, Russia.

May 2018

• Perspectives on bordered Heegaard Floer theory. CIRGET, Montréal, Canada.

SEMINAR TALKS

SEMINAR TALKS	
• Trends in Low-Dimensional Topology, virtual seminar.	May 2020
• University of British Columbia, virtual talk via zoom. Topology Seminar.	May 2020
• Caltech, virtual talk via zoom. Joint LA Topology Seminar.	April 2020
• Columbia University, New York, USA. Topology Seminar.	December 2019
• Princeton University, Princeton, USA. Topology Seminar.	December 2019
• Dartmouth College, Hanover, USA. Topology Seminar.	March 2019
• Michigan State University, Lansing, USA. Topology Seminar.	October 2018
• University of British Columbia, Vancouver, Canada. Topology Seminar.	September 2018
• University of Georgia, Athens, USA. Topology Seminar.	August 2018
• Indiana University, Bloomington, USA. Topology Seminar.	January 2018
• Caltech, Pasadena, USA. Geometry and Topology Seminar.	November 2017
• Rutgers University, New Brunswick, USA. Geometry and Topology Seminar.	November 2017
• Columbia University, New York, USA. Symplectic Geometry, Gauge Theory, and Categorification Seminar.	November 2017
• MIT, Cambridge, USA. Geometry and Topology Seminar.	October 2017
• Stony Brook University, Stony Brook, USA. Topology and Symplectic Geometry / Math of Gauge Fields seminar.	September 2017
TEACHING AND WORK EXPERIENCE	
• Linear Algebra and Applications, Indiana University. One 50 students section.	Spring 2020
• Calculus I, Indiana University. Two 60 students sections.	Fall 2019
• Brief Survey of Calculus, Indiana University. One 75 students section.	Spring 2019
• Brief Survey of Calculus, Indiana University. Two sections, 75 students each.	Fall 2018
• Linear algebra with applications, Princeton University. One 25 students section.	Fall 2015
• Review sessions for linear algebra and calculus, Princeton University.	2016 - 2017
• Online math-education platform Evarist, side project. www.evarist.org/course/mathan/ We teach there analysis with proofs exclusively through problem solving.	2015 – present

AWARDS AND HONORS

• AMS Simons travel grant		2019
• Graduate student teaching award, Princeton University. In recognition of outstanding teaching.		2017
• 32nd Russian national mathematical Olympiad, 3rd prize.		2008
• Moscow Mathematical Olympiad, 1st and 2nd prizes. Also special prize for a beautiful geometric solution in 2006.	2006,	2008
• President prize from the government of Russia, for extraordinary achievements.	2006,	2008
MISCELLANEOUS		

MISCELLANEOUS

- Languages: English, Russian, Armenian.
- Programming skills: Web and python. Built www.evarist.org, see https://github.com/artofkot/evarist. Also implemented a python package to work with type DA bimodules and their Hochschild homologies (accompanies the paper Comparing homological invariants for mapping classes of surfaces).
- Interests: blockchain, Ethereum, game go (2dan), chess, volleyball, table tennis.
